

E-SLIDE 540 PRO

COMPACT HEAT PRESS
FOR TEXTILES & SUBLIMATION

Built for photo labs, photographers, and print shops running small to medium productions.

Applications

- Textiles
- Rigid Supports
- Sporting Goods
- Photo Panels
- Advertising

Feature	e-SLIDE 540 PRO
Weight	105 kg / 232 lb
Pressure	320 gr/cm ² (≈4.5 psi)
Max Temperature	220°C / 429°F
Power Supply	240 V - single phase
Electric Power	2,200 W
Amperage	10 A
Working Area	400 x 500 mm / 16" x 20"
Max Product Thickness	17 mm / 0.67"

Advanced Electronics

- **PID Control:** Fast and precise temperature regulation.
- **Adaptive Settings:** Parameters optimized for flex, textile sublimation.
- **Editable Recipes:** Fully customizable programs with a resettable cycle counter.
- **Monitoring:** Multi-timer, 0-60 min, and stop-cycle function.
- **ECO Mode:** Reduces consumption between production runs.

Key Features

- **Perfect Heat Distribution:** Even heat and pressure across the full 16"x20" plate.
- **User-Friendly Interface:** Sefa-developed touch screen for simple, fast operation.
- **High Efficiency:** Reaches 180°C in just 12 minutes.
- **Optimized Workflow:** Front-loading drawer with automatic release.
- **Quick Release:** 180° reversible C-shaped lower plate with rapid changeover.
- **Robust Construction:** Heavy-duty frame with Nomex cover included as standard.

Optional Accessories

- Set of 4 Plates: 12x8, 15x15, 12x45, 25x30 cm
- Lower Heating Plate 40x50 cm
- Protective Nomex® Cover
- Laser Positioning System
- Silent Compressor: 40 dB, 24 L, 37 L/min

Warranty

- **10 Years:** On heating elements.
- **3 Years:** On the machine.
